CCM 1500 CHIP/CHUNK MOULDING LINE COMPACT DESIGN

CCM 1500 CHIP & CHUNK MOULDING LINE 800 – 3 000 KG/HOUR

SGL Technology, part of IPCO, is a leading manufacturer and supplier of specialised handling, processing and forming systems for the chocolate industry and a company with a wealth of experience across the broader food processing industry.

We are a trusted supplier to many of the most respected names in chocolate processing and production, and we work closely with our customers to deliver systems that maximise productivity while at the same time ensuring a premium quality end product.

The CCM 1500 Chip & Chunk Moulding Line is one such system:

- Triple pass steel belt cooling
- Servo cutter
- Modular design
- Industrial set-up
- Compact design
- Minimum floor space requirement
- Low maintenance costs
- High OEE and efficiency
- High capacity 800–3000 kg/hour
- Flexible/quick changeover < 30 min

Responsive service, global support

SGL Technology is now part of IPCO, a market leader in the design, engineering and installation of processing systems and a company with a history that extends back well over a century.

Choose IPCO as your partner supplier and you benefit not only from our expertise in the design and installation of solidification and handling plant, but also from the reassurance of working with one of the world's most forward thinking engineering groups.

IPCO is a high-technology engineering business with advanced products, innovative solutions and world-leading positions within multiple areas. As part of this group, we're able to offer the specialist skills and responsiveness of a medium-sized company, backed up by the strength and stability of a globally active company; the Swedish FAM AB group, owned by The Wallenberg Foundations.
